I. INTRODUCTION

The purpose of the City of Hollywood's Housing Programs Policy is to provide direction and guidelines for administering programs operated with Federal, State, Local and private funds. As the City receives funding capable of leveraging federal and state funding and regulations governing federal and state funding are periodically modified, the Housing Programs Policy will be similarly amended.

According to the U.S. Census Bureau, the percentage of individuals and households living below the federal poverty level has consistently increased over the past thirty years in both Broward County and the State of Florida. Based on this trend, the need for assistance programs and housing subsidy continues to increase. Due to the limited amount of Federal and State grant funds available to the City, two objectives of the Housing Programs Policy is to leverage available resources and to encourage private improvement efforts and investment. Due to the age of the housing stock in Hollywood, the policy guidance is intended to both preserve viable, older housing and to encourage the development and operation of new affordable housing. The programs are designed to improve conditions of neighborhoods throughout the city, to leverage other public and private funds, to expand affordable and accessible housing choice to all sectors of the City's population and to enhance the City's residential tax base.

A principal source of funding available to leverage Federal and State grant funds are County Contribution Funds made available by the Interlocal Agreement among Broward County, the City of Hollywood, and the City of Hollywood Community Redevelopment Agency Regarding Funding for Affordable Housing approved by the Hollywood City Commission on October 3, 2018 pursuant to Resolution No. R-2018-324 as amended from time to time. County Contribution Funds may be committed for the provision of Purchase Assistance, Housing Rehabilitation, Work Skills Development, or Actual expenses for planning, designing, or implementing horizontal infrastructure (i.e., drainage, wastewater, water supply, solid waste, lighting, paving, bridges, roadways, canals, or transportation) in areas within the City in which more than half (>50%) of the residents have an annual median income (AMI), adjusted for family size, that is eighty percent (80%) or less of the AMI for Broward County, Florida and any census tract(s) where sixteen percent (16%) or more of the population falls under the federal poverty rate.

The City of Hollywood's Housing Program Policies direct limited Federal and/or State grant sources leveraged by local funding to eligible applicants and projects which will stimulate reinvestment of private capital. The City's public funds may be directed in the following manner: (i) down payment, closing cost assistance, principal reduction and mortgage subsidy assistance to facilitate new first mortgages obtained through private lenders; (ii) housing rehabilitation and housing replacement loans or grants which will motivate other property owners to make additional investment; (iii) property acquisition, including foreclosure

purchases, to arrest deterioration in neighborhoods and promote private investment; (iv) Tenant-Based Rental Assistance.

The City of Hollywood's Housing Program Policies are designed for all applicable sources of funds allocated to the Community Development Division through Federal State and Local Programs. Eligibility for assistance shall be determined pursuant to 24 CFR Part 5, as required by 24 CFR Section 92.203(c) for each funded program or project. The City's Housing Programs falls within the recapture provisions as set forth in 24 CFR Section 92.254.

II. FUNDING COMMITMENT INCLUDING SPECIFIC HOME CONDITIONS

Funds shall be committed in accordance with applicable regulations. The 2013 HOME Final Rule clarifies which actions constitute and do not constitute a "Commitment," as follows:

- Funds may be committed for the provision of down payment assistance.
- Agreements with a Community Housing and Development Organization (CHDO) that are not project-specific are not considered commitments. The City shall commit CHDO set-aside funds to specific projects for a specified amount of HOME funds within twenty-four (24) months of signing their HOME grant agreement.
- The City shall not commit HOME funds to a project until all necessary financing is secured, a budget and construction schedule established, underwriting and subsidy layering completed, and construction is scheduled to begin within 12 months.
- Signatories to written agreements shall date the document in order for it to constitute a valid commitment. Since the HOME statute and regulations require the City to enter into a legally binding commitment within twenty-four (24) months of signing the HOME Investment Partnerships Agreement, dates are needed to verify compliance.
- The City shall include certain provisions and requirements as set forth in Section 92.504(c) in its written agreement with eligible qualified applicants, recipients and CHDO's.
- A commitment does not include an agreement between the City and a subrecipient that the City controls (such as an authority that is part of the local government) or a lead entity of a consortium and a consortium member.
- Where HOME funds are being utilized the minimum amount of HOME funds that shall be invested in a project involving rental housing or homeownership is \$1,000.00 times the number of HOME-assisted units in the project, as set forth in 24 CFR Section 92.205(c) of the HOME Investment Partnerships Program Final

Rule. The maximum assistance for HOME-assisted units is further set forth in Section 221(d) (3) of the HUD Maximum Mortgage Limits Non-Elevator Construction Chart published by the HUD Field Office, and as amended from time to time.

III. PROGRAM AND POLICY ADMINISTRATION

A. PROGRAM AND POLICY ADMINISTRATION

The administration of the City's Housing Program Policies as set forth herein, and as amended from time to time, fall within the responsibilities of the Community Development Division. Administration and oversight of the Housing Programs shall adhere to all applicable State and Federal regulations. As part of the Division's administrative oversight, all vendors and approved partnerships shall be subject to inquiry by the General Services Administration (GSA) system for the purpose of disseminating information on parties that are excluded from receiving federal contracts, certain subcontracts, and certain federal financial and nonfinancial assistance and benefits, pursuant to the provisions of 31 U.S.C. 6101, note, E.O. 12549, 48 CFR Section 9.404, as amended from time to time, and each agency's codification of the Common Rule for Non-procurement suspension and debarment. Vendors and partnerships on the debarred list shall not be eligible for financial benefits. In addition, the Community Development Division shall adhere to this process when using other local or state funding sources.

The activities outlined in these Policies, which are funded in whole or in part with funds received from the U.S. Department of Housing and Urban Development (HUD), remain subject to all applicable federal laws, regulations, and rules for funded projects. This includes applicable Uniform Administrative Requirements set forth in 2 CFR Part 225 and 2 CFR Part 230, the Recordkeeping requirements set forth in 24 CFR Section 92.508 and 24 CFR Section 570.506.

Furthermore, any recipient of federal funds is entitled to all rights and protections afforded by the federal laws applicable to HUD-funded projects.

B. AFFIRMATIVE MARKETING; MINORITY OUTREACH

The City of Hollywood shall make every effort to inform the general public of housing opportunities available through the Community Development Division by placing advertisements in newspapers of general circulation and by periodically including informational flyers in the utility bills that are sent to each resident (renter or owner) without regard to race, color, national origin, sex, religion, familial status or disability. Each advertisement and flyer shall include the Equal Housing Opportunity logo. The Fair Housing Poster and Fair Housing contact number shall remain displayed prominently at the Community Development Division office.

The Community Development Advisory Board (CDAB), representatives of the service population, and the African-American Advisory Council (AAAC), which represents the African-American community, shall be informed of each available City program. In addition, all City of Hollywood Community Development Block Grant (CDBG) subrecipients, contractors, and developers shall be required to advertise all City of Hollywood initiatives to their respective clientele and partners.

The D Community Development Division shall keep and retain a record of actions taken to affirmatively address fair housing concerns, in accordance with HOME and CDBG record retention rules and regulation.

Participants in housing programs provided by the City will receive homebuyer/homeowner education, which includes fair housing training in both English and Spanish language versions.

The City shall periodically conduct fair housing workshops at locations throughout the City. Workshops shall be conducted in both English and Spanish language.

C. WRITTEN AGREEMENTS WITH SUBRECIPIENTS, DEVELOPERS, AND CONTRACTORS

1. The City shall, when entering into an agreement with a Subrecipient or Developer, determine the role of the entity as set forth below:
 - a. Any entity carrying out all or a portion of a program activity is serving in the capacity of Subrecipient.
 - b. Any entity carrying out specific projects is serving in the capacity of owner, developer, or sponsor.
2. Written agreements with Subrecipients or Developers shall include, but not be limited to the following:
 - a. Requirements for income determinations, underwriting and subsidy layering guidelines, rehabilitation standards, refinancing guidelines, homebuyer program policies, and affordability requirements as set forth in 24 CFR Section 92.504(c)(2)
 - b. Provisions setting forth the funding amounts and utilization of said funds for specific programs and activities (i.e. down payment assistance, affordable housing development, tenant-based rental assistance, etc.), the number of housing projects to be funded or loans to be made, tasks to be performed, schedule for completion, and any requirements for matching contributions, and a budget for each program as set forth in 24 CFR Section 92.504(c)(2)(i).

- c. Language that requires the Subrecipient or Developer to comply with all applicable federal laws and regulations, with the exception of the environmental review,, which is the City's responsibility.
- d. Language that requires a Subrecipient or Developer to comply with the provisions of 24 CFR Section 92.504(c) with any other entity or individual to which it disburses funds covered by this policy.
- e. Language that prohibits charging fees for monitoring, servicing or origination. However, the agreement may allow a nominal application fee to project owners to discourage frivolous applications.
- f. Language that sets forth the affordability requirements to be incorporated into the required deed restrictions, use restrictions, covenants running with the land, or other legal mechanisms approved by HUD and/or the State of Florida under which the City has the right to seek specific performance.
- g. A provision requiring Subrecipients or Developers to specify the number and size of each rental unit, separated by funding source and designated as "fixed" or "floating".
- h. A requirement for the Subrecipient or Developer to provide the address of each rental unit to the City by the time of project completion.
- i. A requirement that the Subrecipient or Developer specify initial rents, the procedures for rent increases and that such initial rent prices and any increases each year shall be in accordance with 24 CFR Section 92.252(f)(2) and approved by the City's Community Development Division prior to the institution of such rent prices.
- j. That for homeownership projects, the agreement shall set forth recapture of funds requirements, the sales price or basis on which the sales price will be established, and the disposition of sales proceeds
- k. A provision that requires the Subrecipient or Developer to identify any limitation on eligibility or preference given to a particular segment of the population. Any limitation or preference shall not violate nondiscrimination requirements set forth in 24 CFR Section 92.350, shall meet with the approval of the City and must comply with the requirements of the funding source.
- l. Language that requires annual reports on rents and occupancy of assisted units to verify compliance with affordability requirements. If a project has floating units, information on unit substitution and filling vacancies to ensure that the project maintains the required unit mix reports (including financial reports) that enable the City to determine the financial condition and continued financial viability of the rental project.
- m. If a project involves a Community Housing Development Organization (CHDO), the agreement shall set forth provisions that address the following: (1) whether the CHDO may retain proceeds from the sale of units; (2) tenant grievance procedures; (3) a tenant participation plan; (4) whether the proceeds are to be used for HOME-eligible or other housing activities to benefit low-income families; and (5) recaptured funds are subject to the requirements set forth in 24 CFR Section 92.503(c), which

require that the funds shall be returned to the City or used for other HOME-assisted housing activities.

- n. Written prohibitions preventing owners from charging fees that are not reasonable and customary. For rental housing, owners can charge: reasonable application fees to prospective tenants, other fees (such as parking fees) only to the extent that they are reasonable and customary for the project area; and fees for services provided to tenants, provided that these services are not mandatory.
3. In accordance with 24 CFR Section 92.254(e), and in order to govern situations where HOME homeownership assistance is provided through a nonprofit or for-profit entity that also provides first mortgage financing to the homebuyer, or the City contracts with a for-profit or non-profit lender to make eligibility determinations, but another entity (the City or otherwise) is providing the HOME financial assistance, the City shall ensure that:
 - a. The assistance may be provided only as specified in a written agreement between the City and the lender. The agreement shall specify the forms, amounts, and any conditions of homeownership assistance the lender is authorized to provide.
 - b. Before any HOME assistance is provided, the City shall verify that the applicant is eligible for HOME assistance (low- or moderate-income) and shall inspect the housing for compliance with applicable property standards set forth in 24 CFR Section 92.251.
 - c. The for-profit or nonprofit organizations are not charging fees (such as origination fees or points) to the applicant for the HOME homeownership assistance that the organization provides. (Reasonable administrative costs may be charged to the HOME program as a project cost in accordance with applicable federal regulations.)
 4. Faith Based Organizations. In accordance with 24 CFR 92.257 the City shall ensure that:
 - a. In the project or subrecipient selection process, faith-based organizations shall receive equal consideration and such shall be stated in solicitations (i.e. Request for Proposals).
 - b. When funding faith-based organizations, the written agreement shall set forth that HOME funds and activities shall be separate (in terms of time and location) from explicitly religious activities.
 5. In accordance with 24 CFR Section 92.351, any written agreements with subrecipients, developers, or sponsors shall include affirmative marketing requirements that ensure the inclusion, to the maximum extent possible, of minorities and women, and entities owned by minorities and women, including, without limitation, real estate firms, construction firms, appraisal firms,

management firms, financial institutions, investment banking firms, underwriters, accountants, and providers of legal services.

D. CONFLICT OF INTEREST

In accordance with 24 CFR Section 92.356(b), no person(s) who exercises or has exercised any functions or responsibilities with respect to activities assisted with HOME funds, or who are in a position to participate in a decision making process or gain inside information with regard to these activities, may not obtain a financial interest or benefit from the assisted activity described in these Policies, or have an interest in any contract, subcontract or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties, during their tenure, or for one (1) year thereafter. County Contribution Funds and State Housing Initiative Partnership funds are not subject to the requirements of 24 CFR Section 92.356(b).

The conflict of interest provisions set forth in 24 CFR Section 92.356(b) apply to any person who is an employee, agent, consultant, officer, or elected official or appointed official of the City, or subrecipient receiving federal funds.

In accordance with HUD regulations, a local government may designate elected or appointed officials to serve on the boards of nonprofit organizations that may provide affordable housing within their communities. If the public official does not receive a salary or any other financial compensation for serving on the board; the official's interest would be a personal one only.

E. GREEN BUILDING PRACTICES

The City of Hollywood has created a Green Team Advisory Committee to make recommendations to the City Commission to develop target environmental goals and implementation plans. Based upon certain recommendations from the Committee, the City Commission passed and adopted mandatory Green Building Practices for new construction and major renovations. Any and all new construction and major renovations funded under the Programs set forth in these policies, shall comply with the requirements set forth in any applicable rules, regulations or ordinances relating to these Green Building Practices.

F. FORECLOSURE MITIGATION AND RESOURCE REFERRAL SERVICES

To further enhance the City's Housing Programs and protect the City's interests, the Community Development Division has taken steps to mitigate foreclosures by providing resource referral services to assist homeowners that were recipients of City funding under its Housing Programs.

G. OPTIONAL TEMPORARY RELOCATION ASSISTANCE POLICY: Voluntary Owner-Occupied Residential Single Family Housing Rehabilitation and Lead-Based Paint Mitigation/Abatement

The City of Hollywood has allocated federal and state funds for the purpose of carrying out owner-occupied housing rehabilitation within the City's jurisdiction in compliance with eligible activity requirements of the various federal and state programs, rules and regulations.

Federal funds may be used for temporary relocation payments and assistance to persons who must temporarily relocate due to an activity that is not subject to the displaced person requirements set forth in 24 CFR Section 570.606, as amended from time to time.

The City deems it in the best of interest of resident homeowner-occupants to develop this Optional Temporary Relocations Assistance Policy to provide limited moving assistance for owner-occupants who relocate for a temporary period of time pursuant to 24 CFR Section 570.606, as amended from time to time.

Pursuant to this Policy, the City may provide certain moving assistance that makes financial aid available to resident owner-occupants who voluntarily apply for consideration for such assistance pursuant to the City's Voluntary Homeowner Rehabilitation or Demolition Replacement Program, as set forth in these Policies.

Eligibility for temporary relocation assistance shall be determined by the City on a case-by-case basis after receipt of an Optional Temporary Relocation Assistance Application. Upon receipt of an application, the City shall determine the applicant's eligibility based upon the following criteria:

1. The temporary relocation assistance exceeds a one-night period and involves the removal and storage of furniture; and
2. The occupancy of the unit during construction rehabilitation is likely to expose the homeowner/family to a threat to their health, safety or welfare and temporary relocation is necessary to eliminate the threat.

Upon approval of the application, the Optional Temporary Relocation Assistance will be provided on a reimbursement basis, as follows:

1. The applicant will be required to execute an agreement with the City for said financial assistance.
2. The applicant/homeowner will be responsible for a self-move.
3. The City will provide moving and storage financial assistance in an amount not to exceed \$1,500.00. Moving and storage financial assistance shall be for those costs directly related to the packing, crating, storage and insurance cost required to temporarily relocate during the time of the housing rehabilitation

and return to the house upon the completion of the project, including the successful completion of a lead-based paint clearance exam, if required.

H. CITY OF HOLLYWOOD HOME SUBSIDY LAYERING GUIDELINE

The Cranston-Gonzalez National Affordable Housing Act as set forth in 24 CFR Part 91, the American Recovery and Reinvestment Act, the Housing and Economic Recovery Act, and the Consolidation Plan Final Rule, require a Participating Jurisdiction (“City”) to provide a certificate with the Consolidated Plan to approve layering guidelines. This certificate asserts that prior to the commitment of funds to a project, the City will evaluate the project in accordance with the guidelines set forth in the aforementioned acts and rule, and will not invest more HOME funds in combination with other federal, state, or local loan, grant, guarantee, insurance, payment, rebate, subsidy, credit, tax benefit, or any other form of direct or indirect assistance for use, or in connection with a specific project. Where available, the City will rely upon guidelines developed and evaluations conducted by other agencies pursuant to applicable HUD regulations or the Internal Revenue Code. The City will maintain the results of its required evaluation in each such project file.

I. USE OF THE GUIDELINES

Before committing funds to a project, the City shall evaluate the project in accordance with HOME guidelines and will not invest any more HOME funds, in combination with other governmental assistance, than is necessary to provide affordable housing. While the evaluation requirement is predicated on the combination of HOME funds with other governmental assistance, this guidance will also be used when determining the level of HOME funds to be used in a project absent other governmental assistance. The evaluation may need to be updated, if additional sources of funds not originally contemplated, are added to the project. The City may rely upon the guidelines developed and evaluation conducted by other agencies when Low-Income Housing Tax Credits (LIHTC) are used. The following guidelines are designed to adhere to 24 CFR Section 92.250(b) (1),(2), and (3) and 24 CFR Section 92.205 in its entirety by requiring the City to:

- Establish standards to assess the reasonableness of profit or return to the owner or developer, for the size, type, and complexity of the project.
- Examine the sources and uses for each project and determine whether the costs are reasonable.
- Assess the market conditions of the neighborhood in which the project will be located.
- Assess the experience and financial capacity of the developer.
- Determine whether there are firm financial commitments for the project.

J. LOW-INCOME HOUSING TAX CREDITS

The City may rely upon the State tax credit allocating agency's evaluation to ensure that the HUD subsidies are not greater than necessary to provide affordable housing when combining HOME assistance with the tax credits. Such state agencies have typically established project guidelines based upon project size, characteristics, location and risk factors that determine appropriate project costs and developer fees. An acceptable state agency certification is done pursuant to either applicable HUD regulations or the Internal Revenue Code. HOME funds awarded by the City to a project will be conditional upon the receipt of a copy of the evaluation conducted by the state tax credit allocating agency.

K. PROJECT EVALUATION

Before the City invests HOME funds in a project, it will assess whether other governmental assistance has been, or is likely to be, made available to the project. In performing this evaluation, the City will consider the aggregate amount of assistance from HUD and other sources that is necessary to insure the project's feasibility. These may include, but are not limited to, past rates of return (in that area for that type of project) to owners, sponsors, and investors, the long term needs of the project and its tenants, and the usual and customary fees in project development. Emphasis will be placed on the income level of the population to be served, the level of rent restriction to be recorded against the property, and time duration of such restrictions. In accordance with 24 CFR Section 92.205(a) (2), if the proposed project involves the acquisition of vacant land or demolition and the use of HOME funds, then such acquisition or demolition shall be in connection with an affordable housing project † where construction can begin within twelve (12) months, as established in paragraph (2) of the definition of "commitment" in 24 CFR Section 92.2, and an assessment of risk shall be evaluated in accordance with 24 CFR Section 92.504(a). City staff shall pay particular attention to costs incurred in the planning stages of a project because 24 CFR Section 92.205(e)(1) requires the City to repay any HOME funds expended on projects that are terminated before completion. However, 24 CFR Section 92.206(d)(1) allows the City to use HOME funds to pay for architectural, engineering, and other professional service costs incurred no more than twenty-four (24) months prior to the commitment of HOME funds.

L. CERTIFICATE OF ASSISTANCE

The City will obtain a formal certification from each applicant concerning the governmental assistance provided or to be provided to the project. If no such governmental assistance is to be provided at the time of application or in the future, the applicant(s) shall attest and certify to that fact. Further, the applicant's certification shall include a statement that should other governmental assistance be sought in the future, the City will be notified prior to submittal for such assistance.

M. GENERAL PROJECT REQUIREMENTS APPLICABLE TO ALL HOUSING PROGRAMS SET FORTH IN THESE HOUSING POLICIES.

1. Sources and Uses of the Funds Statement. All applicants are required to submit a Sources and Uses of Funds Statement for their project. This statement shall be consistent with the project development budget as set forth below and shall include the following:

- All proposed sources of funds (including public and private) and the dollar amount for each source. The application shall include documentation of such funding from all fund sources which may be in the form of a commitment letter.
- All uses funds, including but not limited to acquisition costs, rehabilitation or construction costs, financing costs, and professional fees that are required for the project.

The City will identify the types of documentation necessary to verify the sources and uses of funds indicated in the statement. The listing documentation will be provided to the applicant(s) so that the documentation may be submitted along with the Sources and Uses of the Funds Statement application packet for HOME funds.

The applicant shall also provide supporting documentation for all other costs as specified in the Sources and Uses of Funds Statement. If the documentation is not adequate and does not support the costs as stated, the City may request additional documentation, a second opinion and/or reference from the appropriate source (i.e. – another construction cost estimator, another architect or lawyer), or deny the project HOME funding. It should be noted that for projects with tax credits to be sold, the proceeds from the sale of these credits shall be identified as a source of funding.

2. Sources of Funds. Upon request from the City, Applicants may be required to provide the following documentation:

- a. Commitment letters with terms and conditions for all mortgages, grants, subordination agreements, bridge (interim) loans and investment tax credits (historical, low-income, if applicable); and
- b. If the applicant is a partnership, a copy of the partnership agreement, which will indicate the cash contributions by the general partner(s) and/or limited partner(s).

3. Uses of Funds. Upon request from the City, applicants may be required to provide the following documentation for determination of viability to receive and utilize the respective Housing Program funding.

- a. Earnest money agreement, option or closing statement for land and/or building(s);
- b. Construction cost estimate;
- c. Construction contract or preliminary bid(s);
- d. Agreements governing the various reserves which are capitalized at closing (to verify that the reserves cannot be withdrawn later as fees or distributions);
- e. Appraisal (to substantiate the value of the land and the value of the property after rehabilitation or the structure being built); or
- f. If low income housing tax credits are utilized, documentation on the syndication costs (legal, accounting, tax opinion, etc.) from the organization/individual who will syndicate and oversee the offering to ensure that the project can support the fees necessary to syndicate/fund the project. All assumptions in the offering should be verified in the supporting documentation.

The applicant shall also provide supporting documentation for all other costs as specified in the Sources and Uses of Funds Statement. If the documentation is not adequate and does not support the costs as stated, the City may request additional documentation, a second opinion and/or reference from the appropriate source (i.e. – another construction cost estimator, another architect or lawyer), or deny the project HOME funding. It should be noted that for projects with tax credits to be sold, the proceeds from the sale of these credits shall be identified as a source of funding.

4. Project Development Budget

In addition to the Sources and Uses Funds Statement, applicants are required to submit a Project Development Budget. The budget should categorize cost in a manner consistent with the Sources and Uses Funds Statement, and be presented in such a manner that the City can easily refer back to the Statement to determine the source of funding to be used for all costs. The budget shall include all costs associated with the project, regardless of the funding source. The budget line items may include, but are not limited to: construction "hard" costs, soft costs (such as architectural, engineering, legal and appraisal fees), marketing costs, construction loan interest, developer fees, real estate taxes, insurance, all loan fees, building permits, relocation and commercial fees. The Project Development Budget shall reflect the total cost as set forth in the Uses section of the Sources and Uses of Funds Statement.

If the Project is a HOME Funding Project, the City will review the Project Development Budget to ensure that the costs being funded by the HOME program

are eligible and the HOME funds per unit do not exceed the maximum per-unit subsidy limit.

In reviewing the Project Development Budget, the City will focus on the quality of the end product, construction costs, architectural and engineering fees, and consulting fees. The City will determine the costs that are customary and necessary depending upon the type of development activity. (For example, it may consider the demands of new construction as opposed to rehabilitation and senior housing as opposed to housing for large families). The City will determine whether these costs are reasonable and whether they meet the applicable federal or state requirements. The City's determination of "reasonableness" and meeting the applicable federal or state requirements shall be based on all of the following factors:

- Costs of comparable projects in the State of Florida;
- The qualification of the cost estimators for the various budget line items; and
- Comparable costs as published by recognized industry cost index services.

N. RATE OF RETURN ON EQUITY INVESTMENT

1. Pro Forma

The applicant shall furnish a Pro Forma (project income and expense statement) which shall include, at a minimum, achievable rent levels, market vacancies and operating expenses. It shall also specify the consequences of tax benefits, if any, and any other assumptions used in calculating the project's cash flow in order for City staff to determine the reasonableness of the rate of return on equity investment. The Pro Forma shall represent the term of the HOME affordability requirements or the term of other affordability requirements as mandated by other funding sources if longer. The Pro Forma shall not exceed the anticipated useful life of the facility. In general, adequacy of the Pro Forma shall be evaluated on the basis of industry standards as identified by HUD.

The City will review the Pro Forma to ensure that cash flow projections are reasonable in light of present economic conditions, and are neither unduly conservative nor overly optimistic. Further, the Pro Forma will be reviewed to determine that the projected rates of return are reasonable and that the applicant(s) will not receive excessive profit or windfalls from the project. An excessive profit/gain shall not be derived from the project, in part due to the financing method (low-income housing tax credits, low-interest loans, tax abatements, etc.). Specific standards for reasonable rates of return on the invested equity based on the project specifications shall be established by the City.

2. Single-Family Rental Housing (1-4 units)

The requirements outlined in Paragraph 1 above pertain to single-family housing of 1-4 units, as well as multi-family rental housing (for example: income/expenses, cash on cash and net operating analysis). Before applying these requirements, two factors shall be considered by the City: (1) whether the rental project is owner-occupied; and (2) whether the owner-occupied unit is being rehabilitated with federal funds.

If both of these factors apply to the project, then the rental income for the owner's units (had the project not been owner-occupied) shall be excluded from the income analysis of the Pro Forma. For example: in a four-unit, owner-occupied project, only the expected income of the three rental units included in the income analysis. Similarly, expenses associated with the rehabilitated owner's units shall also be excluded from the Pro Forma. The exclusion of income and expense of the owner's unit not only affects the operating income and cash analysis, but also influences the results of the Pro Forma.

O. SINGLE-FAMILY OWNER-OCCUPIED HOUSING REHABILITATION AND HOMEOWNERSHIP ASSISTANCE (1UNIT)

For Single-Family Owner-Occupied Housing Rehabilitation and Single-Family Homeownership Assistance, the City is required to substantiate that no more HOME funds than necessary were provided to the project. To that end, each activity/project file shall contain a Loan Breakdown Computation Sheet that includes a Project Development Budget. The Loan Breakdown Computation Sheet shall categorize costs in a manner consistent with a Sources and Uses Funds Statement and shall be presented in such a manner that the City can refer back to the Loan Breakdown Computation Sheet to determine the source of funding to be used for all costs. It shall include all costs associated with the project, regardless of the funding source. The Loan Breakdown Computation Sheet line items may include, but not be limited to, construction "hard" costs, soft costs (architectural, engineering, legal and appraisal fees), marketing costs, construction loan interest, developer fees, real estate taxes, insurance, all loan fees, building permits, relocation and commercial fees. The Loan Breakdown Computation Sheet shall reflect the total cost as set forth in the "Uses" section of a Sources and Uses Funds Statement.

The City will review the Loan Breakdown Computation Sheet to ensure that the costs are eligible under the applicable funding source. As part of the Project Development Budget review, the City will focus on the quality of the end product, construction costs, architectural and engineering fees and consulting fees. The City will determine which costs are customary and necessary, depending on the needs of the housing rehabilitation activity. Further, the City will determine whether these costs are reasonable utilizing construction cost contained in the most recent edition of RSMMeans Construction Cost Data.

P. DOCUMENTATION OF LAYERING REVIEW

Each activity/project file shall contain a Commitment of Funds Document which substantiates and verifies compliance with the HOME Subsidy Layering Guidelines, Sources and Uses Funds Statement, Project Development Budget (inclusive of updates) from the developer and additional review and any supporting documentation requested by the City.

IV. MONITORING AND INSPECTIONS POLICY

A. PURPOSE

In accordance with 24 CFR Section 92.504(a), the City shall follow written policies, procedures, and systems, including a system for assessing risk of activities and projects, and a system for monitoring entities which includes, but is not limited to subrecipients, contractors, and developers to ensure that HOME requirements are met.

B. POLICY

1. Risk Assessment – During Project Evaluation, the City shall determine the risk of the project by evaluating the subrecipient's or developer's past performance and financial capability to perform the duties.
2. Monitoring Schedule – During the contracting period, the City shall assign staff, develop reporting criteria, and schedule monitoring that shall include at least one on-site monitoring visit to ensure adherence to funding regulations. All federally-funded activities shall be monitored at least annually.
3. Inspection Schedule – During construction the property will be inspected periodically to gauge progress.

V. ANTI-PREDATORY LENDING POLICY

A. PURPOSE

The City of Hollywood's Housing Programs Policies direct available Federal and/or State grant sources leveraged by local funding to eligible applicants and projects which will stimulate reinvestment of private capital. This occurs by utilizing the funds—for down payment and closing cost assistance to assist the eligible applicants in obtaining new first mortgages obtained from private lenders. 24 CFR Section 92.254(f) requires the City to have and follow written policies addressing predatory lending. The City shall have a policy to protect against predatory lending. Moreover, the City supports the expansion of affordable and equitable homeownership, and recognizes that predatory lending practices are inconsistent with advancing homeownership.

Recent rulemaking by the Consumer Financial Protection Bureau (CFPB) resulted in guidelines setting forth how federal agencies that insure or guarantee mortgages evaluate a buyer's ability to repay the mortgage. These guidelines are not specific to low-income borrowers and their ability to sustain a mortgage. HUD will issue guidance on preventing predatory lending that explains the CFPB ability-to-pay principles and will suggest additional considerations that are appropriate in an anti-predatory lending policy applicable to low-income homebuyers. The City has developed this Anti-Predatory Lending Policy to serve the purpose of guarding against predatory lending until additional guidance is available.

B. POLICY

The City will not provide assistance to a project that includes a residential mortgage loan ("Mortgage Loan") that does not comply with all applicable federal, state and local predatory lending laws and other laws designed to prevent unfair or abusive lending practices (collectively, "Anti-Predatory Lending Laws").

Further, the City will not provide assistance to a project that includes a Mortgage Loan which involves any of the following practices or characteristics:

1. Requiring the borrower to obtain prepaid, single-premium credit life, credit disability, credit unemployment, or other similar credit insurance as a condition of the loan;
2. Including in loan documents a mandatory arbitration provision with respect to dispute resolution;
3. Charging prepayment penalties for paying off a loan;
4. Lending without regard to a borrower's ability to make payments on the mortgage;
5. Loans which violate the Home Ownership and Equity Protection Act of 1994 and its implementing regulations (collectively, "HOEPA Requirements") or other Anti-Predatory Lending Laws;
6. Loans that are ineligible for inclusion in a structured finance transaction due to a rating agency's determination that it cannot rate a transaction which includes such loans;
7. Loans where the terms of, or practices in connection with, such loans do not comply with the provisions of Regulation Z (12 C.F.R. Part 226) relating to Higher-priced Mortgage Loans;
8. Loans that fail to comply with any requirement of the Mortgage Partnership Finance Program relating to predatory lending, including without limitation, Section 2.6 of the Mortgage Partnership Finance Program Origination Guide.

C. SAFEGUARDS

1. To ensure a borrower's ability to pay the first mortgage, the City shall require borrowers to qualify for a first mortgage through a regulated financial

- institution. The types of loans that are eligible include Fannie Mae, Freddie Mac, FHA, Conventional, portfolio loans or loans provided through Habitat for Humanity.
2. When Habitat for Humanity is the first mortgage lender, no fees shall be charged to the borrower that constitutes an administrative expense (i.e. application fees). The requirements of the program shall be set forth in a written agreement between the City and the borrower, and the City shall inspect the property for compliance with the property standards set forth in 24 CFR Section 92.251.
 3. All borrowers are required to attend a HUD-approved homebuyer class.
 4. To reduce financial risk to borrower during the affordability period assistance will be provided in the form of a deferred-payment loan with recapture provisions.
 5. The borrower shall submit an application that provides information of total household income and assets.
 6. City staff shall require third-party verification of employment and in the absence of verification of employment shall require the submission of no less than two (2) years of tax returns with W-2, no less than two (2) months of pay stubs, and other income and assets information for all household members. This information will be used to determine the total annual gross household income. The information provided by the borrower related to debt will also be used to determine the borrower's ability to afford the monthly payments, including PITI and any homeowner association fees.
 7. Non-occupying co-borrowers are not permitted to ensure that the borrower can afford monthly debt secured by the first mortgage.
 8. The City shall conduct a preliminary review of the borrower's ability to pay through the use of an income calculator. The calculator estimates the borrower's capacity to make monthly mortgage payments based on an affordable loan amount and determines the maximum subsidy needed by the borrower to purchase the property.
 9. All loans to the borrower by the first mortgage lender shall be fixed rate loans. The front- and back-end ratios for borrowers shall not exceed the ratios published by the Consumer Financial Protection Bureau.
 10. All borrowers are required to contribute no less than 3% of the loan commitment amount towards the purchase of the property, in addition to any requirements for contributions and reserves that may be imposed by the first mortgage lender. For loans issued by Habitat for Humanity as the first mortgage lender, the borrower's contribution may be in the form of sweat equity.
 11. A borrower that has non-retirement assets in excess of the amount of subsidy provided by these programs is not eligible for assistance. The homesteaded principal residence shall not be included in the calculation of non-retirement assets.
 12. If other funding sources contribute to the purchase of the property, the City will reduce its assistance to ensure that no more funds than necessary are provided to close the loan.

13. Only single family homes, condominiums, and townhomes are eligible.
14. The appraised value shall be equal to or greater than the purchase price.
15. To prevent predatory lending practices against borrowers, the City will require the first mortgage lender to be a regulated financial institution for the first mortgage loan amount. No seller financing is allowed. The first mortgage shall not be less than \$50,000.00.
16. All loans shall have a fixed-rate (no Balloon or ARM), with no prepayment penalty or origination fees.
17. The annual percentage rate of the primary financing cannot exceed the uniform fixed interest rate of the customary rate for FNMA/FHMLC/Portfortio/FHA/Bond.
18. The front- and back-end ratios for borrowers shall not exceed the ratios published by the Consumer Financial Protection Bureau.
 - a) Total "Administrative" fees shall be reasonable and customary based on applicable City of Hollywood processes and procedures.
 - b) Maximum loan term of thirty (30) years.
 - c) No yield spread premiums allowed.
 - d) Property taxes and hazard insurance shall be escrowed.
 - e) Lenders may finance up to 97% of the purchase price.
 - f) No pre-payment penalty is permitted.
 - g) Cash back at closing is not permitted.
19. Under the terms and conditions of the City's Deferred Payment Promissory Note and Mortgage, the debt is payable in full on the maturity date set forth in the Mortgage that is thirty (30) years from the date of execution of the Promissory Note and Mortgage. However, thirty (30) days prior to the maturity date the mortgagee shall offer the mortgagor a refinancing option, pursuant to the same terms and conditions, so long as mortgagor has not defaulted on any terms or conditions set forth in the Mortgage. At maturity mortgagor is under no obligation to refinance the loan. Mortgagee may also require the principal balance of the loan to be due, in full, at any time prior to the maturity date in the event that mortgagor defaults on any term of the Mortgage, including the house is sold, rented, ceases to be the primary residence of the buyer, transferred or conveyed or by any other means of title transference. The City may subordinate its mortgage when a new mortgage is required to restructure the debt. Subordination is subject to the following conditions, as applicable:
 - a) A request associated with the thirty (30) year maturity date refinance option offered by the City.
 - b) The City's mortgage position remains the same or improves.
 - c) The dollar amount of the new debt is no greater than the pre-existing debt, plus reasonable and customary closing costs at no point to exceed seven percent (7%), unless the City's loan is paid off.
 - d) The borrower cannot take cash out.

- e) Partial payoff of the City's loan may be considered. In this situation, the remaining debt to the City may be subordinated.
- f) In cases of Loan Modification where the City's mortgage is superior and subordination is the only option to modify terms under standard hardship circumstances to avoid foreclosure.
- g) The Community Development Manager, or his/her designee, is authorized to make any management decisions which are not in conflict with Federal or State requirements. The Manager or designee may consider requests for subordination of the City's mortgage interest subject to the above conditions and execution of all applicable documents

VI. FINANCIAL STANDARD OPERATING PROCEDURE

To adhere to accepted financial operating procedures the City of Hollywood uses the following systems:

A. INTEGRATED DISBURSEMENT AND INFORMATION SYSTEM (IDIS)

As a nationwide database, IDIS provides HUD with current information regarding program activities underway across the Nation, including funding data. HUD uses this information to report to Congress and to monitor grantees. IDIS is the draw-down and reporting system for the two CPD formula grant programs: Community Development Block Grant (CDBG) and Home Investment Partnerships Act (HOME), covered in this policy and for CPD competitive grant program HOPWA Competitive. The system allows grantees to request grant funds from HUD and report accomplishments. Grantees also use IDIS for Recovery Act programs: CDBG-R, TCAP and HPRP. Only City staff may access IDIS to request disbursement.

B. DISASTER RECOVERY GRANT REPORTING SYSTEM (DRGR)

The Disaster Recovery Grant Reporting system was developed by HUD's Office of Community Planning and Development for the Disaster Recovery CDBG program and other special appropriations. Data from the system is used by HUD to review activities funded under these programs and for required quarterly reports to Congress

HOUSING REHABILITATION

I. Introduction

The City of Hollywood's locally-adopted Consolidated Plan (as originally adopted pursuant to Resolution No. R-2019-221, and as amended from time to time), has identified preservation of the City's housing stock as a priority. Preservation of housing stock through the rehabilitation of owner-occupied dwellings is a major community need throughout the City. An appropriate community development objective is to offer assistance to low- and moderate- income households in order to improve their housing to at least the minimum property standards as set forth in 24 CFR Section 92.251(b), assist with structural and system repairs and provide loans for housing replacement, when appropriate. These types of assistance serve a public purpose by improving the quality and stability of Hollywood's neighborhoods and enhancing the City's tax base.

In addition, the City entered into an Interlocal Agreement among Broward County, the City of Hollywood, and the City of Hollywood Community Redevelopment Agency Regarding Funding for Affordable Housing approved by the Hollywood City Commission on October 3, 2018 pursuant to Resolution No. R-2018-324. "County Contribution Funds" that result from the Interlocal Agreement among Broward County, the City of Hollywood, and the City of Hollywood Community Redevelopment Agency. County Contribution Funds may be committed to Housing Rehabilitation singularly or in a coordinated effort with private lending, and/or Federal and State funding where appropriate and compliant with funding regulations and the Policies Governing Programs Supported by the Interlocal Agreement for Affordable Housing, Work Skills Development, and Infrastructure as amended from time to time.

II. Authority

Local governments are authorized both by the U.S. Department of Housing and Urban Development (HUD) and the State of Florida's Housing Finance Corporation to administer the general activity of housing rehabilitation. Federal and State programs may be used to finance rehabilitation of privately-owned dwellings through use of grants, loans, loan guarantees, and interest subsidies in conjunction with private lending institutions and County Contribution Funds where appropriate.

Funding for housing rehabilitation may be used to pay for labor, materials and other related costs incurred in rehabilitating housing which is in disrepair due to deferred maintenance or to replace systems and fixtures which have reached the end of their useful life. In general, the goal is to restore a dwelling to a condition which is free of health and safety violations and meets local building and housing codes. However, County Contribution Funds are limited to repairs as permitted in the Policies Governing Programs Supported by the Interlocal Agreement for

Affordable Housing, Work Skills Development, and Infrastructure as amended from time to time. State Housing Initiatives Partnership Program funds and Community Development Block Grant Funds may be used to stabilize property and conduct specific isolated repairs.

III. Standards

County Contribution Funds are limited to repairs as permitted in the Policies Governing Programs Supported by the Interlocal Agreement for Affordable Housing, Work Skills Development, and Infrastructure as amended from time to time. State Housing Initiatives Partnership Program funds and Community Development Block Grant Funds may be used to stabilize property and conduct specific isolated repairs. In all other cases, the minimum standards for housing rehabilitation are:

1. Florida Building Code, as amended from time to time.
2. Hollywood Code of Ordinances and Hollywood Zoning & Land Development Regulations, as amended from time to time.
3. Department of Housing and Urban Development Property Standards (24 CFR Section 92.251), as amended from time to time.
4. City of Hollywood Housing Rehabilitation Specifications.

IV. Contractor Selection

Projects funded by Community Development Block Grant, Home Investment Partnerships Program, and State Housing Initiatives Partnership Program, shall be conducted using an approved list of Contractors selected through a competitive bidding process. Contractors selected for projects funded by County Contribution Funds and other non-federal or state sources shall be selected through a competitive bidding process.

V. Source of Funding

Funding sources for housing rehabilitation programs offered by the City of Hollywood include City, County, Federal, State, and private lender participants. Potential Federal sources include the Community Development Block Grant (CDBG), the Home Investment Partnerships Program (HOME), and federally funded one-time or disaster assistance programs. State sources include the State Housing Initiatives Partnership Program (SHIP) and state funded one-time or disaster assistance programs. City and county funding may be provided by the Interlocal Agreement among Broward County, the City of Hollywood, and the City of Hollywood Community Redevelopment Agency Regarding Funding for Affordable Housing approved by the Hollywood City Commission on October 3, 2018 pursuant to Resolution No. R-2018-324. Private funding may be provided through competitive grant programs, partnerships with participating lenders and other community partners.

VI. Waivers

Any waiving of federal or state regulations or statutes shall be obtained from the appropriate granting agency. Local policies which are not federal or state requirements may be waived by the Hollywood City Commission.
